Do you have Memory problems Yes No Have you ever been raped or assaulted Yes No

This is a confidential document, it is like going to confession with your minister, no one can get this information without your permission, not even the authorities.

Sam was training medical doctors in Worcester, Massachusetts in 1952. Your CD sessions are actually free, what you are paying for is the evaluation to pinpoint the areas you need help in. It's like having an MRI of your mind. Dr. Norris a psychiatrist lost weight and overcame depression, he said he learned more in Sam's meditation program than all of his medical training and working with patients for 35 years.

The average person uses about 10% of their mind according to university studies. Everyone has natural talents and abilities that they are not using to their fullest extent. This program has proven to help thousands of people. Now, it's your turn to get some help. There are many paths to life, and this program will help you get on the right path. Answer the questions truthfully. If you find any questions too offensive or personal, just over look them. However, the more detailed information that you provide, the easier it will be for us to help you. Your evaluation is confidential, and this is your chance to get things off your mind that have been bothering you which could cause you to have all the problems listed above and many more not listed.

Allow up to two weeks to analyze and pinpoint the areas that you need help in. We will select from over 1,800 pre-recorded meditation sessions after we have read your evaluation. We then put together your custom program in a carrying case. You will receive approximately 10 hours of recordings. If you live in Arizona you can pick them up personally. If you live out of state we will mail them to you. Our life style analysis is based on Biblical teachings in helping you break the chain reaction of recycling past family problems and bad experiences. This will help people of any religion. Sam puts his heart into the pre-recorded sessions and wants them to work for you long after he retires. In case personal attention is needed he is training his help and doctors to carry on the tradition, and they will also continue to use his proven pre-recorded sessions. This program may just be what you've been praying for.
